

Sci-Port: Louisiana's Science Center
invites you to the

11TH ANNUAL HIGH SCHOOL ENGINEERING OLYMPICS

in celebration of National Engineering Week

Who?

High School Physics or Physical Science Classes (up to 25 students)

What?

Engineering competition for students to compete using their creativity and knowledge to perform challenges that meet specific requirements. Students will work in groups of five with professional engineers acting as consultants. Medals will be awarded in five categories: **Electronics, Mechanical Engineering, Structural Engineering, Robotics Engineering,** and **Acoustical Engineering.***

When?

Tuesday, February 21, 9:30 a.m. - 12:30 p.m.

Where?

Sci-Port: Louisiana's Science Center

What do you need to compete?

- Up to 25 creative and enthusiastic minds
- \$5 per student for admission to the Center (for Caddo, Bossier and DeSoto), \$6 for all other schools
- Lunch (order lunch packages for \$4 to \$6.50) or bring a sack lunch

How do you register?

Call Sci-Port at 424-8660, and register your students. Availability is limited to 125 students, and only 25 students from each high school may compete. You only pay for the students that attend the competition.

**Sci-Port will address GLEs in physical science, chemistry and physics.*
